avi .mp4 (See the description below to see the whole batch of movies you get in your batch. If you want to see them individually, check the links above.) Step 2: Now here is the next file you need to extract, along with the previous one, from the.rar: Batman: The Dark Knight Returns - Part 2 – 1980.rar Step 3: Now here is the next file you need to extract, along with the previous one, from the.rar: Batman: The Dark Knight Returns - Part 3 – 1980.rar Step 4: And last but not least, here is the last file you need to extract, along with the previous ones, from the.rar: Batman: The Dark Knight Returns – Part 4 – 1980.rar Step 5: Once you have extracted all the files to your desired location, simply double click them, and the movies will play. Enjoy :) Adding note to users in Reddit and other internet forums who have reached this tutorial: You don't have to extract the files in any particular order. You can extract them in any order and it will still work, it just may not give you all the movies you want (for instance, if the files are split into batches, as I have done, this means that only the first batch will get you all the files you need). So you can just start from the first file in the.rar and extract one or two other files from there, and then repeat the process on the rest of the.rar files (but don't forget to extract the first file you got from the.rar with the first batch. This will save you from having to go through the whole movie). Also, to everyone who has reached this tutorial: If you don't get the main Batman movie (Batman: The Dark Knight Returns) in one.rar file, please post in the comments section of this tutorial. I will see if I can get them all working together.
