Another way to waste your money. Doesn't work on my Windows 8.1. Graphics are okay at best.

Pro's:

- + Nice music
- + Graphics are ok

Con's:

- Too long and no way to speed up
- Doesn't perform necessary actions
- Mweh menu. I love it! At first I had problems getting it to work, but after I fixed the screen resolution, there were no more problems. Lovely, fun, a bit time consuming. I would totally recommend it to other people. I mean, I'm 22 years old and I STILL love it!. like farmville except with more rubbing of roosters' asses. This game has everything. Heartwarming story I cried so hard I u2665\u2665\u2665\u2665\u2665 myself, the best gameplay I have ever seen with top of the notch graphics even my alienware gaming laptop couldn't handle it. Forget Fallout 3 or Halo, buy this game, you're not wasting money, you're investing in your future, because once you play 10 minutes of this game you WILL have the equivalent of a veterinary doctorate.. The 3D is awful, the game is boring and there isn't a way to accelerate the time when you have nothing to do.... good game and graphice. how do u create a profile in the game so that u can play it. Love this game just a simple fun game to play to relax. This game is cool. Kids will love it for sure xD I love it too. But it needs a button for skipping time. The time between appointments is a drag :(But once you get all sorts of animals in the pen, you get busier. So, don't worry :)
