quite the fun game! still could use some tune ups here and there but for someone looking for a fast paced run and gun-ish experience its solid! the powers combination is what got me hooked (im hoping they make "combiners" a more frequent drop, only because it has felt like i crawl from floor to floor just hoping to find one) as of right now expect a solid gameplay but a barebones experience, this experience will be a nice addition to your rogue style games. **You might like if: You like a good old fashioned game of chess or Risk.**

**Greed Corp is a funny ol' title... at first glance it can look like an RTS in turn-based form (like Advance Wars). But in actual fact, it's far more linear - which can be a tad disappointing at first if you were expecting the former. But in further playing (especially the campaign), there's actually a nice level of strategy to it. So when setting your expectations: Treat this more like a digital board game, than a full-scale strategy game.**

**The aim is to basically capture tiles and harvest resources in order to build more walkers, your 'infantry' unit; cannons, one-off ranged attacks; and carriers, an expensive one-off ability to let you move one tile of infantry to anywhere on the board. The fun catch is that harvesting resources weakens the ground around you, to the point where it eventually crumbles into the abyss... so the board itself disappears beneath your feet! This creates a fun dynamic where breaking the land is as viable as conquering it. You can even 'aggressively harvest' tiles to wreck your opponent's turf or cut off chokepoints... and make money while you're at it. Score!**

**Unfortunately, this dynamic is also where the game can get a bit repetitive. In a handful of turns, even the most sprawling of levels quickly deteriorate into a handful of isolated islands where each player is rushing to get aircraft. There doesn't appear to be a strong mechanic of choosing between long-term flow or cash-grabs... So it's more just gut the place and make obscene gestures at your neighbours until the game gives you enough resources attack them.**

**That being said, it retains the "strategic dance" of games like chess: Where each player is carefully positioning and waiting for the other to slip up or expose a weak point. Though the execution is perhaps a bit shallow, the tactical depth is at least there and the campaign is good fun. In addition, the design and graphics are simply delightful and the quirky (almost 20's-esque) soundtrack gives the game a fun, playful and inviting vibe.**

**Sure it's no turn-based Dawn of War... but if you like board games like chess, this will be right up your alley!. AWFUL. I bought it and now i cant find it. A complete waste. Finally the story continues! And it gets maybe even better - big, pretty and challenging maps of different and of course distant places in Eternia. A must have for every Dungeon Defenders fan! 9/10. Very epic game gets ur blood pumping great music. I imagine its great with friends too bad i don't have any. Worth the 5\$. The route shows up in my profile(with no Quick Drive), but nowhere else, meaning I cannot play it. Please someone help! Email me at kshirle2@bulldogs.mgccc.edu**

only 5 out of the games play i get almost to the end

then it crashes for what i paid not worth it steam stop putting crap games on. one might say a journey has ended, but i may say it has just started. in a nutshell lets get this game rolling for some sick achievements and all the other stuff that gaben provides us. to great power the PCMS will raise and stop the need to tell people why there xbox sequel console will never get close too the price of freedom . hm he what where was i yeah other all not a very great piece of art. but may i say we might not be the first on mars but we have cake.. Third part of the Runaway trilogy is a good classic point&click adventure, the best of the series. All irritating flaws of the predecessors have been corrected which makes all the puzzles logical and solvable upon thinking. The game is fairly short (almost 2 of the hours of my gameplay were in fact idle), but fun. Plot is ok, drawings are a bit worse than in the Road Adventure. Humour is the same, which means quite poor jokes based on stereotypes (mentally ill patients, stupid marine and such).

For fans of the genre - definitely 'yes'. For others 'if you have free time'.. Pick a Hero

Pros:

Also allows the use of keyboard and gamepad  
Hotseat for local game  
Reminds you if you can still play  
You choose cards you draw from multiple ones  
2 lanes

Cons:

Bad UI, not seeing cards in hand easily  
Some terrible cards, like 0 mana, deal 1 damage to random character, 1 mana 0V1 in front dummie  
You need to press I for card details to actually see what they do, might be faster to also allow this with right/wheel click  
Some spells are missing art  
Hot seat doesn't have a confirmation button to prevent card seeing  
Found an online game, but it just crashed, couldn't use external app to make a picture, but there it is makes one on F12:

[Card browsing only works with a keyboard](#)  
[Frustrating RNG, many cards deal damage to random characters, often hurting your units or hero](#)

[Overall the game isn't very good. RNG is annoying, cards are imbalanced and the multiplayer crashes often. There doesn't seem to even be a deck editor. i didnt like the game becuae](#)

[1. i glitched through the platform that where moving up and down](#)

[2. sometime when i was one a moving platform and i jumped i didnt move at all](#)

[3. there was no sound effects or music so it was really silent](#)

[4. sometimes the lamb didnt want to jump and didnt stop running.](#)

[but i can see potential in the game if the bugs where fixed and some sound and music was added. \(english is my second language so pardon my grammar!\)](#)

[i played the game. yes it had a lot of bugs. along some other issues. but i think for what the price of the game is. its a good game. i mean its only 3 dollars. i had blast playing the game. it was about 2 hours about worth of game play. could be wrong. it was short. fun. and i enjoyed it. but that's my take. you can do whatever you want. remember. its about having fun! about the story someone took the time to make and bring to life. its not always about the graphics or the super high quality. i made a playthrough of it if anyone wants to check it out!.](#)
